

Refrigerators, printers/copiers, other appliances

Activity: Detective work in your school

Group members: _____

Detective work	Yes/No	What could be done to save energy?
Is there more than one refrigerator in the school? If yes, are they mostly full?		
Is there a light that comes on in the refrigerator when you open the door?		
Is the refrigerator close to a heat source?		
Are printers and copiers being turned off at the end of the day and on weekends/holidays?		
Are there other appliances that use electricity in the school that are being kept plugged in and turned on?
