

Work for an industry leader!

Hydro Tasmania is Australia's leading renewable energy business, with more than \$4.5 billion in assets and contributing around 50 per cent of Australia's renewable electricity production from our hydro power stations and our 50 per cent stake in wind farm developer Roaring 40s. Our vision is to be Tasmania's world-renowned renewable energy business.

Business Systems Officer

Two-year fixed-term; applications for part-time welcome.

The position requires a whole-of-business perspective and will contribute to maintaining the integrity of, and providing support for users of, Hydro Tasmania's core business systems. It is also expected that the role will assist with process and business improvement initiatives for the benefit of the organisation.

Applicants should be able to meet the following criteria:

Essential qualifications/experience

- Tertiary qualifications in an appropriate technical/professional discipline or relevant experience
- Experience in a service provision role
- Experience using IT systems

Desirable

- System support or help desk experience
- Data management
- Financial system experience

The successful candidate should also be able to meet our knowledge, skills and abilities criteria, which are available in the position description. For a copy of the position description please go to www.hydro.com.au/home/Careers/Job_vacancies.htm

Technical enquiries may be directed to Mandy Archer on 6230 5739.

Hydro Tasmania is an equal opportunity employer and is committed to providing a safe workplace.

Applications addressing the selection criteria and including a current CV and covering letter may be emailed to CareerOpportunities@hydro.com.au by close of business Monday, 15 March 2010.
