Mersey-Forth Water Management Review
Program Commitments

- Facilitate fish migration at Paloona Dam
- Collaboratively address erosion at Lake Barrington
- Endeavour to maintain higher water levels at Lake Gairdner during key holiday periods
- Upgrade signage
- Provide lake and river flow information on the web
- Better manage Aboriginal Heritage values using a statewide Action Plan
- Collaborate to improve flood planning and response
- Support the sustainable management of water quality in the Mersey River
- Rehabilitate land at Lake Mackenzie impacted by hydropower infrastructure
- Improved communication processes for recreational releases
- Ongoing awareness education to address the threat of aquatic pests and pathogens
- Collaborate in a co-ordinated approach to manage recreation
