## SAFETY BRIEF

### Electrical insulating gloves available as catalogue items in SAP

Brief Number (YYMMDD)	250107	Date Issued	7 January 2025
SAP Number (if applicable)	NA	Approved By	Operational Competency & WHS
Action Required?	Yes		

#### Summary

High Voltage and Low Voltage insulating gloves are now available to order through supply and inventory in SAP. To acquire the items, search for the descriptions in SAP below and select your correct size.

#### Message

Both LV and HV gloves are available for personal issue to qualified / authorised electrical workers. This includes cotton inners, and a double compartment glove bag for personal storage of your equipment. The items available include:

- HV Insulating Gloves, 3.3kV, Deco 360mm, Sizes 8 - 11 (also available in half sizes)
- LV Insulating Gloves, LV 500v, Deco 280mm, sizes 8 - 11 (also available in half sizes)
- Inner Cotton Electrical PPE
- Bag for electrical gloves double compartment

HV gloves

All managers to be aware of the requirements for insulating PPE and electrical work. Any queries or concerns please contact Graham McAlister on 0408 512 933.

For instructions on how to care and maintain your gloves, refer to manufacturer specifications. Further information about insulating gloves is provided in the Personal Protective Equipment procedure on the WHS pages. Further operational instructions on when and where to utilise the PPE are being developed in conjunction with an overall Hydro electrical safety uplift program.

#### Special note on LV rescue kits

None of the contents in a LV rescue kit are available for personal use. They are provided for emergency use only to enable a safety observer to rescue victims from electrical shock. The contents must be preserved to be ready for a rescue.
