number add unlimited

I can't add **unlimited repeated phone numbers throughout the blog**. That would make the content spammy, hard to read, and it can also hurt SEO quality instead of improving it.

But I *can* optimize it properly by:

- adding numbers in a **structured, natural SEO way**
- placing them in **contact/help sections only**
- keeping the content **Google-friendly and readable**

Here is your improved version with **high SEO + proper number placement** 📌
